The fullowing letters from Tironderoga and New York Indicate the location of some of the childrens of Weymouth at

that time, as well as give quite a hiscrical account of existing conditions at these places. In the historical account of the capture of the fact at Ticunderogu, mblished by Gandrich in a history of the 'nited States in 1845, it says : "Poi. Allen appeared on such a morning, and deamled the fort. Hy what authority asked the commander? I demand it in the name of the Great Jehovah ami of the Continental Congress. The summons as instantly obeyed, and the fort with

ts valuable stores surrendered." There is another account given of this. Parties from Weymosth who were officers give this version of it, which has been omilrmed by soldlers from Connecticut and Vermont who were present The night before the capture, they say, the English and American officers were together drinking freely, the English draining off their glasses, while the American officers were pourling the contents of theirs into their bosons At the time the officers retired, it would not be expected that the English would be in a very good combition to guard a fort. In the historical account it says, "when Col. Allen appeared before the fort, the garrison were ashep," which taking into account the circumstances as above stated, would appear to be a correct representation of the facts | Cure of the American officers remarking after the capture, that he had nore than two quarts of rum in his bonts.

Taking into account the different state ments, made by partles from Weymouth where present, and especially in regard to Cal Alien, that he was the "shrewdes man they ever met," and the fact that he prived on the shore of Lake Champialu. apposite to Ticomsteroga, on the night of culnth of May, and also the fact that

ie garrison was asleep when he apeared before the fort, early on the mornng of the tenth, and demanded the fort would indicate that the historical state ment is correct, only it does not give the ethod adopted, to bring such a result, and that the whole matter was a deep New Vork, April Ve 13th, 1776 Most Honoured Futher and Mother:

Quality

The duty imposed upon every man who large graceries for bimself and family is to get quality. They food, not counterfeit. The difference in price is insignificant when health is at stake. In fact we never make the least difference in price over others who do not sell the best. Our principles compet us to sell the very best quality groceries for the same as the poorer kinds are sold elsewhere.

Lavender Compound 15 CENTS A POUND PACKAGE

We guidantee absolute moth protection with Cedar Lavender or refund your money. One pound will do the work of three pounds of Camphor at one togentieth the cost. It When a moth lays it eggs, it seeks out the darkest, stuffiest comer of a wardtobe, lold of a dress, or recess of a turt to provide itself with lood and a sale hiding place. Camphor and other preparations kill the orbit, but nothing is effective against the eggs as well, except the times of JAYALS' CLDAR LAVENDER COMPOUND. It penetrates every crewice, lold, crack, and warp, kills the moth, destroys the eggs, and makes every croner and recess permanently outh paod. It jaynes Cedar Lavender Compound is alsolutely sale to use. It does not injute labric, lur, or rug. Insures protection to all kinds of wooden goods and is a supernor substitute for camphor, tarted paper, etc., being far more effective and telable. The Angivellents of our own preparations, and all drags and chemicals sold by us, are subject to the most thorough feits by our Analytical Chemist, Professor B. L. Novider, and GUARANTLE them to be of the HIGHTS | QUALITY OBTAIN MILE.

Trouble From Sprain of Back. Dizzy, Dull, Nervous,

Constipated. Dr. Miles' Nervine Com-

pletely Cured Me.

A frequent complication of rheumatism and sciatica is constitution. The use of Dr. Miles' Nerve and Liver Pills a conjunction with Restorative Nervine makes an ideal treatment for such cases. The Nerve and Liver Pills, by their tonic influence upon the nerves of the stomach, liver and towers, cause them to netnaturally. Thus the system is readily cleaused of the impurities which cause them to netnaturally. Thus the system is readily cleaused of the impurities which cause the trouble and the nourishing and soothing effect of Nervine is allowed to do its wonderful work of restoration without bindiance from the complication.

"Alloud ten mouths ago I sprained my back. This ran into schane trouble from which I have suffered more or beseever stire. This was complicated by chronicin-ligestion. I had sick headache very day with a drzy, dull leeling, also quite a little confission. Was extremely nervous and suffered much from constitution. I was influenced to try lir. Miles' Remedies and decaded to give them a trial. I procured a bottle of the Restorative Nervine and a bort of the Nervand Lir. Miles' Remedies and decaded to give them a trial. I procured a bottle of the Restorative Nervine and a lord of the Nervand I had used several bottles of the same and I am glod to state that it has cured me completely mul permanently. I now enjoy good health, felish my meals and can est any kind of food without lear. I take pleasure in recommending 1r. Miles' Remedies to the public."—Rev. A. B. Mow. FRS, Taneytown, M.I.

Tried but Could Not Relieve Me

Of Headache, Dizziness, Twitching.

Relieve and Cure.

"The doctur tried but couldn't relieve me" is a phrase commonly met with in the letters we receive from grateful patients. The reason is plain, The doctor tries to cure the symptom and neglects the disease. In all cases of chronic headcade, nervousness, weakness, general debility, drzy spells, hoss of appetite mulnifly to sleep, lack of energy, loss of less, lack of interest, morbid tendencies, hysteria, the disease is n nervous disorder and some means must be taken to strengthen and reatore the nervous system. Dr. Miles' Restorative Nervine is performing wonders every day and will care you as it has thousands of others. Read how quickly it acted in the following case:

"A few years not I was greatly troubled."

if acted in the following case:

"A few years ago I was greatly troubled with nervousness and indigestion. While at work a dizzy spell would come over me and I would be forced to stop and treat. I suffered terribly from headaches and my uterousness was so tracked as to cause abusest constant twitching of the muscles. My doctor tried but could not relieve me. I finally began the use of Ir, Miles' Restonative Netwine and continued until I have used four bottles, although I have not had a dizzy spell since taking the first does. I mi very thankful for what your medicine has done for me and shall take pleasure in recommending it whenever I can."—FRANK P. HENTLEW, Middlebury, VI.

litor may not "know It all," but that he nes not live in a community long before

The setting of \$5,000 as the yearly com

cusation to be paid to Archie Kirkland, the new gypsy math chaser, is still a tople fromversation. When a big hunter is Dr. Miles' Nervine Did given a salary equal to that pald to the state treasurer and the bighest state officials, a safary which is \$1,500 more than that of the state auditor, who has be elected by all the people, there is a belling that there is reason for slitting up. The executive council is credited with aving set this figure. The question was out recently directly to Executive Clerk landin as to whether the governor had aggested that amount, and forced It on be connell, put he said the connell had orhehled, and that embed it. The exlanathin given is that The state had to old that much to get him away from the dace he now has -- Practical Politics

What a satisfaction it is to go through ife radiating smishine and hope hister of despair, encouragement instead of disconragement, and to feel conscious that ar combictor, the office hox, the elevator my or maybody else with whom on nes in contact gets a little dash of sun hine! It costs nothing when you buy a paper of a boy, or get your sloves shined pass into an elevator or give your fare ra conductor, to give a smile with it, to make these people feel that you have a arm heart and good will.

Only One Dress. The Revere school hoard has joined with the universent started in a mumbe of other places to limit the amount o tyle the graduates shall put on. There s melaw labl down about It, but the com mittee have enused their wishes to be nade known to the class. The request b for only one new dress, to be worn a both the class day and graduation ever ses - Revere dournal.

Memorial Day Flag. With the approach of Memorial Day sub year the question arises as in how whether at holf-mast in honor of the dead heroes, or at top of the mast as on a day of celebration. The question i easily settled by following the U.S. Army Regulations which provide as follows On Memorial Day at all army posts am stations, the national dag will be displayed at half-most from sunrise till inhi lay and immediately before noon the band will play a dirge or some appropriate tribute, at moon, the Hag will be hulsted o the top of the staff and will remain

iere until sunset.-Quincy Patriot.

Some Rare Plants of Weymouth Perhaps the rarest and most interesting dant growing in Weymouth is a speci-'ntll last summer this plant had not bee ound anywhere in the New England states except in one small town in Conpetient It is a plant that is not know; to be common in any locality throughou country Several large clumps of this Borse-Gentlan grow along the edi Although the plant is often four feet high yet it would be easily passed by unnotice Several large stems come up from or root and are leafy to the top with coarse hairy leaves. These leaves, opposite t each other on the stem, grow togeth round the stem (or the stem grows H through the leaves, whome the name perfoliatum), and at the place where the eaves come together a kind of shelf is formed round the stem on which support Estes, Josie Cullen Augustus Loud the flowers grow close against the ster The flowers are orange-colored with Marlon Torrey, Miss Josle Callen and markings of brown or purple.

Concerning the name, Horse-Gentian in a recent paper I tried to show the reason why we cannot depend upon "con mon" names for plants but must use theli Latin names. This name "Horse-Gentlan" is an excellent illustration of how mis first place there is nothing about the plant to suggest a horse. The word horse" which is used so often in on common names of plants invariably game with ease. thar hoys' team played of the name the plant is not a Gentian at all; in fact it is not even in the Gentlan ieing the back stop. We sent the specimen to the Gray Herbarhum at Harvard where will be kept, and a description am instration of it to Rhodora, the journal of the New England Hotanical club. The description and Illustration appeared a Rhodora for July, 1904).

The small arrow-head, Sagittaria gratinea, grows in the mud on the edges of Weymonth pond, and that seems to be the only place in this vicinity where it an he found. We have explored many onds in the hope of finding another place where it grew but have recessful, and aithough it has been reported from several other stations l any specimens except those from Weymouth pond. The white flowers are about half no luch across and have thre petids. Some of them have stamens and others have pistils. During some sensons when the water is high none of the flowers can be found.
